

COMPANY PROFILE

ABOUT PPC SOLAR

PPC Solar is an EPC (engineering, procurement, construction) with over 40 years of local presence and established professional relationships with inspectors, permitting jurisdictions, utilities and vendors.

BUSINESS FACTS

- Founded 1979
- Incorporated 2006
- (30) Current Total Team
- 25+ MW of Photovoltaic
- (48) ChargePoint EV Stations installed

THE COMPANY

Founded in 1979 by Michael Weinman as a means to support the off-grid lifestyle prevalent in northern New Mexico, PPC Solar is New Mexico and southern Colorado's premier Solar Electric and Renewable Energy installer. In 1990 the company was passed down to Michael's son, Daniel Weinman, and his dedication has expanded the business to encompass all sectors of photovoltaic installation regionally. PPC Solar's services have also broadened to include the distribution and installation of electric vehicle charging stations, as a ChargePoint Partner. With over 40 years of experience, PPC Solar has installs from southern Colorado to Ruidoso and everywhere in between, with offices in Taos and Albuquerque.
